CHRIS WISE

AIR FORCE OFFICER • UNSW UNIVERSITY MEDALLIST

Canberra, ACT, Australia | email@chriswise.tech | chriswise.tech
linkedin.com/in/chris-a-wise | github.com/ChrisWise07

CERTIFICATIONS

GIAC Incident Handler (GCIH)
GIAC Certifications • 2026
MITRE ATT&CK, live forensics

Security Essentials (GSEC)
GIAC Certifications • 2026
Architecture, cryptography

GIAC Advisory Board
Invitation-Only Member • 2026
Extended for exam scores >85%

EDUCATION

Bachelor of Computing & Cyber Security (Honours)
University of New South Wales (UNSW Sydney)
2020 – 2023 • Canberra, ACT
First-Class Honours • GPA: 6.8 / 7.0

Honours Thesis: *"Machine Learning for High Fidelity Qubit Control"* (Supervised by Assoc. Prof. Matt Woolley).

HONOURS & AWARDS

University Medal 2023
UNSW
Awarded to the undergraduate student with the most outstanding academic performance in the graduating cohort.

Chief of Air Force Award 2022
Royal Australian Air Force
Highest third-year officer cadet award for academic and military achievement, leadership, and service ethos.

TECHNICAL PROFICIENCIES

LANGUAGES
Python | C | C++ | Bash | SQL

AI & SCIENTIFIC COMPUTING
PyTorch | Qiskit | QuTiP | NumPy/SciPy

SYSTEMS & CYBER OPERATIONS
Linux / Unix | Windows | Git | VMware

PROFESSIONAL PROFILE

Australian Air Force Officer and UNSW University Medallist (First-Class Honours) with a strong foundation in computing, cyber security, and machine learning, researching the intersection of quantum technologies, AI, and high-performance computing. Combines disciplined leadership and analytical problem-solving to deliver high-fidelity technical solutions.

PROFESSIONAL EXPERIENCE

Air Force Officer 2024 – Present
Royal Australian Air Force — Canberra, ACT

- Delivering briefings to commanders and decision-makers.
- Conducting risk assessments and risk communication.
- Analysing, managing, and interpreting reports.
- Leading and managing personnel.
- Designed and built an isolated intranet integrating analogue-to-digital hardware and zero-client virtual machines for the Defence Science and Technology Group (DSTG).

Quantum Research Intern Jan 2023 – Apr 2023
Okinawa Institute of Science & Technology (OIST) — Okinawa, Japan

- Researched quantum decoherence and noise modelling within the Quantum Machines Unit.
- Applied machine learning to characterise and mitigate stochastic noise processes in physical qubits.
- Prepared and delivered technical research seminars on quantum control methods.

Air Force Officer Cadet & Support Officer 2020 – 2023
Australian Defence Force Academy (ADFA) — Canberra, ACT

- Completed military officer training concurrently with full-time academic studies in Computing and Cyber Security.
- Completed four self-directed research projects spanning machine learning, quantum computing, and autonomous systems.
- Served as Support Officer responsible for the administration, welfare, and mentoring of junior cadets.
